

Thank you for your interest in our swim lesson programs.

A swim evaluation is required for any new swim participant to the facility or if has been over three months since completing swim lessons with us.

This swim evaluation helps introduce your swimmer to our facility and instructors and also places them in the correct level classes we offer.

Our September evaluation is full. We will offer an October and November evaluation. These evaluation dates will be announced at the end of September.

Please contact us for any additional swim program questions for our fall and winter programs.
