

Dear Patron:

My former partner Gordy and I opened Aquatic Adventures in 2006. Our goal was to build a dive and aquatic center better than any existing facility in the Midwest. We took on this task because we both loved diving, and the water. We were committed to sharing that love with others. We have always been dedicated to serving our customers with respect and excellence. We have always worked to provide our Aquatic Adventures associates with a great work environment.

COVID has been difficult for many businesses and the dive / aquatic industry has been hit particularly hard. The competitive environment has also changed with high schools opening new pools and neighboring cities building community centers.

We are very excited to announce that Katie Murphy is buying the dive operation and will take over operations July 5th. Katie has a passion for diving and has big plans for the dive portion of Aquatic Adventures. She is committed to making it even stronger than it is today. Katie will operate the business out of its current location until she can find a new home for the business.

We are very sad to announce that the aquatic portion of the business will be closing for business 4:00 PM July 2, 2022

That includes swim lessons, lane rental and open swimming.

Any customer refunds for services paid for but not delivered will be processed in June.

We sincerely thank our many loyal customers and our many loyal associates.

We wish you nothing but the very best.

Larry Abbott
